Certificate Program at a Glance

Professional administration for the IP industry

BENEFITS

Intellectual property (IP) is a company's most valuable asset. This certificate program is designed for IP paralegals and benefits:

- employers – because paralegals assist and support lawyers, patent attorneys, and the operational management of companies and law firms, making a significant contribution to efficiency.
- paralegals – because participants gain a fundamental understanding of IP management while also becoming more skilled at operational procedures.

MAIN FEATURES

This program is aimed at professionals working in the legal and IP departments of companies, organizations, and institutions as well as in law firms, patent offices, and public administrations.

Classes take place in Zurich and Bern – at Zurich University of Applied Sciences and in law firms. All classes are taught in English.
